

Know Your Power

Prepare yourself: At Home

Fill out your preparedness plan, put it in a folder and label it "**Privilege & Confidential**" and give it to a person you trust.

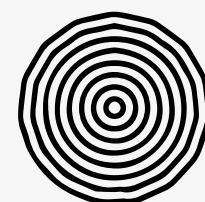

Create a plan in advance with your family and friends, assigning who will be in charge of your case and who will support at different capacities.

Make sure your photos and videos are **being synced** to your virtual account like the Cloud or Google photos, in case you record the interaction with ICE so that other people can get it.

Make sure the fences you have in your **home are closed**. This means that the gating has to be closed with a lock at all the time.

Paste a 'Know Your Rights' flyer and a reminder to record any interaction with ICE inside your door.

- Download the **Notifica app** and add your emergency contacts with an emergency message. We suggest that this message includes the contact of the trusted person that has your preparedness packet and the person who knows your plan.
